ESG ESSENTIALS NEWSLETTER

Erasmus+

Enriching lives, opening minds.

Co-funded by
the European Union

OBJECTIVES

-  Expand the benefits of ESG beyond large corporations to SMEs and microenterprises
-  Raise awareness on the importance of ESG and sustainability across business sectors
-  Close the ESG skills gap by providing accessible training resources
Strengthen the role of VET providers and trainers in promoting ESG competencies
-  Foster collaboration among stakeholders to build an ESG-aware community across Europe

KICK-OFF MEETING IN MALTA

The ESG Essentials project officially kicked off in July with the first transnational meeting in Malta, hosted by the Malta Italian Chamber of Commerce. All partners gathered to define the project strategy, agree on task distribution and shared templates, and set the dissemination plan. The meeting also marked the start of the analysis of ESG training needs and skills within SMEs, laying the groundwork for the development of the project's upcoming outputs.
