3rd TPM IN Sofia, Bulgaria

The 3rd meeting of the ESG Essentials project took place in Sofia, bringing together European partners to review progress, strengthen collaboration, and plan the next stages of the project. During the meeting, partners reviewed project management activities, agreed on upcoming tasks and deadlines, and scheduled future meetings to ensure effective coordination. The meeting was an important opportunity to align the consortium's efforts and continue developing knowledge, tools, and skills related to Environmental, Social and Governance (ESG) principles.

ESG Training Handbook

The ESG Training Handbook supports trainers and training providers in delivering effective ESG courses to SMEs. It provides clear guidance, essential knowledge, and practical tools to help companies understand and apply Environmental, Social and Governance principles.

The Handbook aims to raise awareness among SMEs while equipping learners with the skills to adopt sustainable practices, improve environmental and social performance, and strengthen governance. It also supports educators in developing their ESG competences and enhancing the quality of training.

Through the training, SME managers and employees can integrate sustainability into their daily operations, adopt responsible practices, and build more resilient, ethical, and future-oriented businesses.
